

GENERAL FOOD INFORMATION

At Dixie Bones we keep it simple & fresh. We make our family recipes using fresh vegetables & use the best ingredients.

ALLERGIES:

- **PEANUT** oil is used to fry catfish, French fries & Dixie Chips. Peanut oil is **NOT** used in the preparation of any other food.
- Soy products are **NOT** used in any recipe.
- **NUTS:** Brownies are **NOT** made with nuts. Pecan pie is made with pecans!
- **MSG** is **NOT** used in any recipe.
- **PRESERVATIVES: NO PRESERVATIVES ARE USED IN THE PREPARATION OF OUR FOOD.** However, we do use **KRAFT** American cheese to make a kids grilled cheese sandwich. No one is exactly sure what is in this cheese.
- **WHEAT GLUTEN.** Gold Medal/King Arthur/Lancelot flour is used to bake pies, apple and cherry cobbler, brownies, rolls, cornbread & Dixie Dog buns. The elbow macaroni used in our macaroni & cheese also contains wheat gluten.

FOOD CONCERNS:

- **SUGAR – If you are a diabetic:** Ribs & chicken are marinated in a dry rub heavy with sugar – pulled chicken has the skin removed before it is chopped. Whole or half chicken is served with the skin on. The best meat for very restricted sugar consumption would be beef or pork..both are cooked without using a dry rub or marinade. Rib & beef sauces are made with light brown sugar.
- **LOW FAT/LOW CALORIE DIETS –** All our meat is smoked using hickory wood. The long cooking time for pork & beef, cooks off excess fat & any that is left is removed when we pull it for your order. Request that **NO** sauce be put on the meat after it has been cut.

Our desserts are made with heavy cream, sugar, eggs, butter & various high calorie ingredients. If you are on a strict diet they should be avoided.

- **VEGETARIANS** - Our restaurant specializes in BBQ meat. The only meals available for vegetarians are loaded potatoes, coleslaw, macaroni & cheese, muddy spuds, potato salad, grilled cheese sandwiches & desserts.

INGREDIENTS BY FOOD CATEGORIES
